

Welcome to the 15th Step

I'm Joe Costa, and I'd like to tell you about the 15th Step Process, a process I've learned from my Inner World guides for communicating with masters, guides and angels. This is a process you can learn, without difficulty, that will let you talk directly with your own guides and angels. Doesn't that sound intriguing?

The 15th Step is a simple, easy process that vibrates the physical body to a proper vibration to match the frequency of guides and masters of the Inner World. It is an actual place you visit, a bridge between the material world and the non-material world where you can go to heal the cells of the body and begin to learn about the "other side", what it's all about, and how to make your life work as an energy being in a human body.
